## THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

- Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual share-holders holding shares in demat mode.
- Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.
- (i) The voting period begins on Friday, 20th September 2024 (9.00 AM) and ends on 22nd September 2024 (5.00 PM). During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date 16th September 2024 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/ CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual share-holders holding shares in demat mode.
- (iv) In terms of SEBI circular no. SEBI/HO/CFD/ CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

#### Performance Review:

#### **Rubfila International Ltd**

The year 2023 marked a landmark year for India as it assumed Presidency of the global economic assembly, the G20, and showcased its economic prowess and diplomatic finesse to the world. In a world where many countries were reeling under financial stress, Indian Economy remained resilient with robust 7.6% growth rate of GDP in financial year 2023-24 compared to 7% growth in previous year 2022-23. India is the fastest growing economy among the G20 nations and is today the 5th largest economy in the world. The Indian government has pledged to make the country the third largest economy by 2027 and with the growth projected by international agencies, it appears to be a milestone waiting to happen.

Rubber thread, as is known, is an intermediary material catering to the needs of the garment industry, fortunes of which were under duress for major part of the year. Though some green shoots were visible towards the end of the second half, American and European markets remained cautious in buying affecting the sentiments of the players in India. In addition to this, the domestic markets also were under pressure pressuring the domestic players to indulge in price war to corner the reduced pie of demand.

The industry faced major challenges on various fronts during the year which affected the profitability of the industry. These challenges included latex prices, market demand situation, shipping issues related to Red Sea crisis etc.

The price of natural latex in the Thailand/ Malaysia markets is the deciding factor for fixing the prices of rubber thread in the international market. But Indian rubber thread industry faces a major hurdle in the form of higher latex prices in the domestic markets. With government imposing higher customs tariff on natural latex to safe guard the domestic growers, latex available for the rubber thread industry at considerably higher levels than the international prices. To add on to the crisis, rubber threads as a product can be imported at 5% of customs duty and this acts as a severe constraint for the Indian industry to pass on the cost of latex onto the customers compressing the margins.

The Indian latex prices fluctuated went as high ₹125 plus per litre during the year while for most part of the year, international prices were in the ₹90 range per litre and moved to around ₹120 range per litre towards the last quarter of the year. With Kerala, the largest rubber producer in the country reeling under extreme

heat, availability of latex dropped leading to volatility in prices and this situation is expected to continue into the FY25 too.

Your company also faced hurdles on the export front with the delays and cost escalation in shipping due to the unrest in the West Asia. With all ships using the route via Cape Town, shipments experienced delays in reaching destinations and this in turn stretched the payment cycles. Shipping costs also went up exponentially and is ruling at similar levels as was experienced during the Covid times.

In spite of all these adverse factors, your company managed to grow the sales by 10% in volume over the sales of the previous year. Domestic sales was at ₹ 30033.88 crores while exports fetched a revenue of ₹8426.78 lakhs. There was a growth of 11% in the domestic sales while exports dropped compared to the previous year sales of ₹ 9864.09 lakhs. Total revenue from operations stood at ₹ 38601.83 Lakhs as compared to ₹ 37080.92 lakhs in the past year.

Turkey had initiated an enquiry against India for imposing anti-dumping duty on rubber threads and your company had presented the facts before the Trade Team deputed by the Government of Turkey. The process of enquiry is under progress and the final decision is expected by the end of August or September 2024.

#### **Future Prospects**

Textile markets have been going through a downturn for the past couple of years. Indian exports to Americas and Europe had taken a beating and domestic markets also went through a slowdown. Rubber thread industry's fortunes are linked to that of the textile markets and this had an impact on the company.

The textile market has seen some revival since the last quarter of the financial year and the rubber thread industry is looking forward to have a positive consequential impact from this. There are green shoots visible, but it needs to be seen that these smaller bumps in demands turn into a consistent flow of orders. The industry is generally optimistic that the slump should turn around for the better in the coming quarters. Your company is currently exploring further expansion in the international markets and believes that the exercise will help it find customers in these newer markets.

India had been expecting positive traction with global players adopting China + 1 strategy, but had observed that countries like Bangladesh and Vietnam reaped more benefits. With Bangladesh facing problems on various fronts such as increase in labor costs, law and order issues and compliance in labor laws, there is a visible shift in diversion of orders to India. Exports from Bangladesh is on a decline since 2023 and this gap is partially fulfilled by India. As per Ministry of Commerce, GoI, Textile and Apparel exports from India grew by around 4 % in the first quarter of the current financial year and the trend is expected to continue. Also, Bangladesh is set to achieve the status of a developing nation by 2026 and with that, it will lose the benefit of duty-free access to the major markets, another factor to help India gather more orders from the international markets. Rubber threads form part of the textile and garment chain and the positive trends in the textile sector will have a rub-off effect on the rubber thread industry.

Another factor to affect the fortunes of the rubber thread industry is the wide gap in the Indian latex prices when compared with the international prices. There has been a drop in the production of latex this year with extreme heat conditions in Kerala, largest rubber producing state in India and this will have an impact on latex prices in the medium term. Currently international latex prices are at much lower levels than Indian prices and with curbs on import of latex in place, industry will be hard pressed for margins.

#### **Premier Tissues India Ltd:**

Tissue Paper industry is one with hundreds of players jostling for space and a lion's share of these are in the unorganized sector. There are many players who indulge in unethical practices like misrepresented packaging labels, tax avoidance and this along with very low overheads help them sell at very low prices compared to branded players like Premier.

The sales of Premier dropped by a narrow margin during the year, but posted a net profit of Rs.635.80 lakhs, the highest in its history, as compared to Rs.256.96 lakhs in the previous year. Major initiatives related to cost management, plant operations and materials yielded good results improving the bottom line. Revenue from operations stood at ₹8608.26 lakhs as compared to Rs.8822.54 lakhs for the previous year, a drop by 2%.

A major challenge faced by the company is the high attrition in manpower among with field sales force which appears to be a regular norm in consumer goods industry. Ways to address this issue are initiated and the company hopes to reduce the attrition in the long term.

South Indian states continue to be a strong base for the brand, though gaps have been identified in the region offering opportunity to grow. North Indian states offer great potential for the brand since the region has a weak distribution network there. Strengthening of the sales infrastructure in the form of manpower and new distributors is happening and growth should be happening sooner progressively.

#### **Future Prospects**

Consumption of tissue paper products in India is growing at a healthy rate since tissue papers have become an essential part of the daily life. There is happening at home as well as at institutions like hotels, restaurants, airports, offices or anywhere hygiene has become a focus area. The awareness has gone up after the pandemic and this has been a driving point in increasing the consumption of tissue products.

There are not many entry barriers in this segment since the capital investment needed for setting a unit is low. Most of the entrepreneurs produce napkins and toilet rolls and market the same to restaurants and hotels who are price sensitive. The prices offered by these players become a benchmark pressuring organized companies to drop prices.

Premier has bettered its profitability by overhauling the back end processes and expects to go aggressive in sales in the future. Even as it is plugging the gaps in the sales network in South India, it plans to expand the sales infrastructure in the north and eastern markets. These markets have been highly price sensitive and efforts are on to launch SKUs at competitive prices helping the company to increase its market share in these regions.

#### **Consolidated Figures:**

The consolidated revenue from operations of Rubfila and Premier Tissues for the year 2023-24 was ₹.47,734.18 lakhs with the profit before tax (PBT) at ₹ 3,260.39 lakhs. The consolidated profits after tax (PAT) during the year was ₹ 2539.87 lakhs compared to ₹ 2,595.27 lakhs in the past year.

The financial statements of the company have been prepared in accordance with Ind AS, as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Act.

The said requirement does not apply to shares in respect of which there is a specific order of Court, Tribunal or Statutory Authority, restraining any transfer of the shares.

In the interest of the shareholders, the Company sends periodical reminders to the shareholders to claim their dividends in order to avoid transfer of dividends/shares to IEPF Authority. Notices in this regard are also published in the newspapers and the details of unclaimed dividends and shareholders whose shares are liable to be transferred to the IEPF Authority, are uploaded on the Company's website https://rubfila.com/disclosures-under-regulations-46-62-of-sebi-lodr

The Company has received certificates from a Company Secretary in Practice on quarterly basis for timely dematerialization of the Company's shares and for reconciliation of the total equity capital with both the depositories and in physical mode with the total paid up capital as per books.

The details of unclaimed dividends and shares transferred to IEPF during FY 2024 are as follows:

| Financial Year | Amount of unclaimed dividend transferred | Number of shares transferred |
|----------------|--|------------------------------|
| 2015 – 2016    | 1469289.00                               | 107587                       |

The Members who have a claim on above dividends and/or shares are requested to follow the below process:

- 1. Submit self-attested copies of documents provided in IEPF 5 help kit, which is available on IEPF website (www.iepf.gov.in) to the Company / Registrar and Transfer Agent (RTA).
- 2. After verification of the aforesaid documents submitted, Company will issue an entitlement letter.
- 3. File Form IEPF-5 on IEPF website and send self-attested copies of IEPF-5 form along with the acknowledgement (SRN), Indemnity bond and entitlement letter to Company.
- 4. On receipt of the physical documents mentioned above, Company will submit e-Verification report, for further processing by the IEPF Authority.

Members are requested to note that no claims shall lie against the Company in respect of the dividend/ shares transferred to IEPF.

The following table give information relating to various outstanding dividends and the dates by which they can be claimed by the shareholders from the Company's RTA:

## Management Discussion and Analysis of Operations

#### 1. ECONOMIC REVIEW & OUTLOOK

World economy went through a spin in the past couple of years with the war between Russia and Ukraine continuing without an end in sight. The unrest in West Asia and the subsequent attack on ships in Red Sea led to serious disruptions in shipping logistics resulting in overall time overruns and costs. The Americas and Europe went into recession impacting the purchasing power affecting the consumer sentiments. Customers tightened their purses shrinking the discretionary spending and thus demand slumped across the board. This was a blow to many Asian economies since they depend heavily on exports to America and Europe. China, known as the factory to world, faced slowdowns with dip in utilization of manufacturing capacities in factories. Surge in inflation was a norm in many countries forcing central banks to tighten on monetary policies and interest rates. Irrespective of such adverse situations, the world remained largely resilient and carried on without any major collapse of economies. Economic growth has been stronger than expected in the second half of the 2023 in several emerging markets and developing economies.

Despite headwinds around, India was seen as a green patch with its economy growing at much higher rate than other countries. The country has achieved the status of the fifth largest economy in the world and is projected to move up to the third position by the year 2030.

But in India itself, many sectors faced the brunt of the world recession and textile was one of them. India is a prominent exporter of textiles and recession in buying countries impacted the textile sector largely. As rubber threads finds application in the textile industry, the prospects of the industry and your company are directly linked to the ups and downs in the textile sector. This led to a shrink in the demand for rubber threads. Tiruppur which is the largest hosiery cluster in India with exports of about ₹ 35000 crores p.a, suffered badly with order flow thinning drastically. And,

this reflected badly in the demand for rubber threads.

#### 2. SECTOR REVIEW

The order boom during the pandemic period had made some of the Indian rubber thread manufacturers to expand the capacities and with the shrinking of demand, this acted as a burden for the industry and a price war ensued for sharing the shrunk demand. Another factor was the wide variance in natural latex prices existing in India vis-à-vis what was there in South East Asian markets. Indian latex prices generally rule at higher levels than the international prices due to the restrictions on import of latex in the country. International rubber thread prices are benchmarked against the Thailand latex prices and the Indian rubber thread industry, with no access to the cheaper latex prices, is compelled to follow the same, a situation not always favorable for the Indian industry.

International logistics was another irritant during the year with the disruption of peace in West Asia. Shipping through Red Sea route suffered and ships had to circumvent Africa to proceed to the Western destinations stretching the sailing time. Freight costs went up considerably and delivery of goods to the destination ports also got stretched by another four to six weeks.

Turkey, a major market for the company, initiated an anti-dumping investigation against the India and the process is under progress. Your company has presented the facts to the investigating team and the results are expected to be out by October.

Facing all these headwinds, your company posted a sales revenue of ₹ 38601.83 lakhs.and a net profit of ₹1905.12 lakhs. There was a mild increase in the metrics of sales volume and revenue, but the profits suffered a dip. For Premier Tissues, the revenue remained almost flat at ₹ 8462.71 lakhs, but the profits jumped by almost 200%. The consolidated sales combining the figures of the subsidiary was ₹.46, 979.56 lakhs with the net profit at ₹.2539.87lakhs.

#### 3. OPPORTUNITIES & THREATS

#### Opportunities for the Company are:

- The brand 'Rubfil' which has enjoyed the reputation in India as well as internationally remain as the strength for the company. This is helping the company to make inroads into more and more international markets which remain unexplored as of now.
- 2. Though there has been some slowdown in the markets in the past couple of years, the Innerwear and garment markets are expected to bounce back with a healthy growth rate.

#### Threats:

- Imports from Malaysia and Thailand which enjoy lower duty regime under FTA with those countries remains as a perpetual threat. The industry has been representing on these issues to the government and it appears that government is willing to review the effects of these FTAs on the Indian industry in various domains.
- 2. Indian latex prices continue to rule at higher levels than international prices and this disparity is a major threat for the Indian companies to remain competitive.
- Government continues to restrain free imports of latex into the country making it difficult to be at par with the leading international players who have access to latex at lower prices.
- 4. Extreme climate situations are playing major havoc affecting the tapping cycles of rubber resulting in lower production, shortage and eventually higher prices. The consumption of rubber in India has always been higher than production in the country and this gap is projected to widen in the coming years as per Rubber Board. This may not augur well for the industry since the prices will continue to be at higher levels than the internationally.
- There is surplus capacity in the country which can lead to price war and lower margins for the industry.
- 6. Spandex, the alternate material in the industry can be a threat in deciding the consumption pattern of rubber threads.

#### 4. OUTLOOK

The economy in general which went through a reces-

sion in the past years is showing some signs of recovery. Green shoots visible in various segments indicate that demand may pick up in the current year and your company is also confident that demand will pick up by Q3.

The latex prices continue to be a matter of concern and unless the gap between the Indian prices and the international prices narrows down, it will be a major challenge for the Indian rubber thread industry. As of now, projections show some cooling off in the prices by Q3 and unless that happens, the Indian industry will face squeeze in the margins.

With demand expected to pick up, your company is well positioned to tap the same in India as well as overseas. New customers are being identified overseas and the export sales is expected to pick up soon, though margins may be under pressure due to the variance in latex prices.

# Premier Tissues India Ltd (Wholly-owned Subsidiary):

Premier Tissues India Ltd, the wholly owned subsidiary, has streamlined its operations and has improved its profitability. The company is in the process of extending its reach to more markets where it is not in active presence now. The brand is having a strong presence in the South and West regions and sales is expected to move up in the near future. With the factory at Mysore, prohibitive logistical costs acts as a major constraint in making the brand competitive in the north and eastern markets. Company has gone in for an asset-light model in having an offsite conversion unit in the east closer to the markets. This would help address the logistical costs making the brand more competitive and improve the sales sooner than later.

India remains a country with the one of the lowest per capita consumptions of tissue paper products in the world. With the per capita income on the rise, the consumption patterns in the country has undergone a sea change and this is reflected in the spike demand for tissue papers. Increase in population, higher spending on healthcare, rapid urbanisation, infrastructural developments etc are all further fuelling the market growth. From the stage of seeing paper tissue as a luxury item, it has now become a daily use one and the industry is geared up to tap this opportunity with all earnestness.

The tissue market is segmented into two, 'At Home' (AH) and 'Away From Home' (AFH) based on where the consumption happens. 'At Home' segment is the one where consumers buy the product for direct con-

sumption at home. Tissue papers have become a regular item in the monthly grocery purchase for many households. While this is more confined to the high income segment currently, the trend is slowly dissipating to lower levels too with usage of tissues becoming a habit.

AFH segment caters to institutions like hotels, restaurants, airports, offices etc where they purchase the same for consumption by their patrons. This segment forms major part of the Indian market and which is driving the growth. The rising number of commercial spaces and institutions and public infrastructure along with the growing emphasis on personal hygiene and sanitation, this sector is bound to achieve higher growth.

The "PREMIER" brand enjoys a mind space which is unparalleled in the tissue paper industry. While this is a great strength, it has become a bane also with numerous spurious products brought to the market with look-alike Premier packaging to mislead the customers and the company is working closely with law enforcing agencies to address the issue.

The sales for the 2023-24 remained almost flat for the company since the company took steps to consolidate its position in the south Indian market where it has been traditionally strong. While steps for extending the reach of the sales network to the North Indian markets were on, recruiting of skilled manpower, appointing the right distributors and related payment terms etc acted as major challenges against achieving the planned outcomes. The company is addressing these issues progressively and expects positive results in the near term.

Even as the sales remained flat, the company achieved the highest profit of  $\stackrel{?}{\stackrel{?}{\stackrel{?}{$\sim}}}$  635.77 lakhs during the year. Prudent strategies adopted in procurement, pricing and focussing on the remunerative markets helped the company to achieve this distinction.

The per capita consumption of tissue paper products in India is very low and currently the market is growing at a double digit growth, though on a lower base. With the increase in population, income levels and changes in lifestyle, the consumption of tissue paper products is projected to grow further increasing the overall market size.

There are only three players with national presence with a few companies with prominence confined to their regions. The total number of players in the market is estimated to be in hundreds, but majority produce and sell paper napkins, the low hanging fruit in the entire chain. These are the players who upset the whole pricing mechanism of the industry by offering very low prices. Many of these players resort to unethical ways like avoiding taxes, misrepresenting the actual volume of product packed vis-à-vis what is printed on packaging etc.

The entry barriers to this industry are close to nothing and this creates a beeline of new entrepreneurs to start new units, though majority exit sooner than later when the going gets tough. Organised sector faces pricing pressure due to the presence of a large number these unorganised players and are compelled to operate with thin margins.

Premier Tissues has been a respected brand which finds acceptance everywhere and the company is confident of extending its reach to more corners of the country thereby increasing the sales. The sales infrastructure is being boosted by addition of more sales professionals and distributors and this should help the company to achieve the planned growth in the coming years.

# 5. INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has proper and adequate internal control systems to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorized, recorded and reported correctly.

#### To the members of Rubfila International Limited Report on the Audit of the Standalone Financial Statements

#### **Opinion**

We have audited the accompanying standalone financial statements of Rubfila International Limited (the 'Company'), which comprise the Standalone Balance Sheet as at 31 March 2024, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the standalone statement of changes in equity and the standalone statement of cash flows for the year then ended, and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements ("the financial statements") give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143 (10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder,

and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

#### Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors Report, Management Discussion and Analysis, and Report on Corporate Governance and Business Responsibility and Sustainability Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the standalone financial statements

The Company's Board of Directors is responsible for

the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### Auditor's responsibilities for the audit of the standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with Standards on Auditing, specified under Section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Report on other legal and regulatory requirements

- c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
- v. The company has declared dividend during the year in compliance with provisions under Section 123 of the Act.
- vi. Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail facility and that has operated throughout the year for all relevant transactions recorded in the software, except that the audit trail is not maintained for changes to certain records and changes made by certain users with specific access, if any. During the course of performing our procedures, except for the aforesaid instances of audit trail not maintained at the application level where the question of our commenting on whether the audit trail has been tampered with does not arise, we did not notice any instance of audit trail feature being tampered with in cases where the audit trail feature was enabled. With respect to direct database changes, in the absence of adequate documentation in relation to the database, we are unable to comment on the audit trail feature and, ac-

- cordingly, the question of our commenting on whether the audit trail feature was tampered with, does not arise. Also, refer Note 49 to the standalone financial statements.
- The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Trivandrum 24 May 2024

Annexure A referred to in Paragraph 18 of the Independent Auditor's Report of even date to the members of Rubfila International Limited on the standalone financial statements for the year ended 31 March 2024

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- a A The Company is maintaining proper records showing full particulars, including quantitative details and situation of its property, plant and equipment and investment property.
  - B The Company has maintained proper records showing full particulars of intangible assets.
  - b The Property, Plant and Equipment are physically verified by the Management according to a phased programme designed to cover all the items over a period of two years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
  - c The title deeds of all the immovable properties classified as PPE including investment

properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company except for the one mentioned in note no 2.1

| Description of property    | Gross carrying value | Held in name of   | · · | Period held –<br>indicate range,<br>where appropri-<br>ate | being held in   |
|----------------------------|----------------------|---|-----|--|---|
| Property in Udu-<br>melpet | ₹8.47 Lakhs          | M/s.Sri Amar-<br>avati Venkate-<br>sa Paper and<br>Boards Ltd | No  | 2018-2019  | Title deed not issued due to unsettled liabilities of the previous owner. |

- d The Company has chosen cost model for its Property, Plant and Equipment and intangible assets. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment or intangible assets does not arise. The Company has not revalued its property, plant and equipment or intangible assets during the year.
- e Based on the information and explanations furnished to us no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder. Accordingly, reporting under clause 3(i)(e) of the Order is not applicable to the Company.
- ii a The physical verification of inventory (excluding stocks with third parties) has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.
  - b The Company has no working capital loans sanctioned by banks hence the requirement of quarterly statements, are not applicable.

iii a The Company has provided inter corporate loans to the following companies during the year.

| Nature of the company  | Loans<br>Granted ₹ | Balance<br>outstanding ₹ |
|--|--------------------|--------------------------|
| Unrelated company  | Nil Lakhs          | Nil                      |
| Related company not being a subsidiary. Associate or a joint venture | Nil Lakhs          | 2,575 Lakhs              |
| Interest<br>accrued on<br>above                                      |                    | 19.72 Lakhs              |

Other than this the company has not made any investments nor provide any guarantee or security during the year.

- b In our opinion, and according to the information and explanations given to us the loans given and terms and conditions of the grant of loans (including in earlier years) are, prima facie, not prejudicial to the interest of the Company.
- c In respect of loans granted by the Company, the schedule of repayment of principal and the payment of the interest has been stipulated and the repayment/ receipt of principal and interest are regular.
- d There is no overdue amount in respect of loan granted to such companies.
- e No loans granted by the company has fallen due during the year.

- f The Company has not granted any loans or advances in the nature of loans, which are repayable on demand or without specifying any terms or period of repayment.
- iv In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made.
- v The Company has not accepted any deposits or amounts which are deemed to be deposits referred in Sections 73, 74, 75 and 76 of the Act and the Rules framed there under
- vi Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii a In our opinion, the Company is regular in depositing the undisputed statutory dues, including goods and services tax, provident fund, employees' state insurance, income tax, duty of customs, cess, professional tax, cess and other material statutory dues, as applicable, with the appropriate authorities.
  - b According to the information and explanations given to us, there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except disputed duty drawback of Rs. 391.73 Lakhs as mentioned in note no 40.
- viii There are no transactions previously unrecorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.
- ix a The company is a zero-debt company and hence there has no defaults in repayment of loans or borrowings or in the payment of interest thereon to any lender.
  - b On the basis of our audit procedures, we re-

- port that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.
- c The Company has not obtained any term loans during the year ended March 31, 2024 and there was no unutilized balance of term loan obtained in earlier years as on April 1, 2023. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable to the Company.
- d On an overall examination of the financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary.
- e According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiary.
- a The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x) (a) of the Order is not applicable to the Company.
  - b According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or (fully, partially, or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- xi a During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management
  - b During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under Rule 13 of Companies (Au-

- dit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.
- c During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, the Company has not received whistle-blower complaints during the year.
- xii The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- xiii In our opinion and according to the information and explanations given to us, all transactions entered by the Company with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under Section 133 of the Act.
- xiv a In our opinion and according to the information and explanations given to us, the Company has an internal audit system as required under Section 138 of the Act which is commensurate with the size and nature of its business.
  - b We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- xv According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with them and accordingly, provisions of Section 192 of the Act are not applicable to the Company.
- xvi The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clause 3(xvi) of the Order is not applicable to the Company.
- xvii The Company has not incurred cash losses in the

- current financial year or in the preceding financial years.
- xvii There has been no resignation of the statutory auditors during the year.
- xix According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We. however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx According to the information and explanations given to us, the Company fulfilled the criteria as specified under Section 135(1) of the Act read with the Companies (Corporate Social Responsibility Policy) Rules, 2014.
- xxi The reporting under clause (xxi) is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

#### Annexure B to The Independent Auditor's Report - 31 March 2024

Report on the Internal Financial Controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph (A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

#### **Opinion**

We have audited the internal financial controls with reference to standalone financial statements of Rubfila International Limited (RIL) ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

# Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with respect to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with respect to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with respect to standalone financial statements included obtaining an understanding of internal financial controls with respect to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

## Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls**

With reference to Standalone Financial Statements Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# Notes to Standalone Financial Statements

# for the year ended 31 March 2024

#### 1 Corporate Information

Rubfila International Limited (RIL) is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India.

The company is the largest manufacturer of both Talcum Coated and Silicon Coated Heat Latex Resistant Rubber threads in India. It has adopted internationally accepted quality standards and its products are well received among customers both in India as well as around the world.

The standalone financial statements for the year ended 31 March 2024 were approved by the Board of Directors and authorized for issue on 24 May 2024.

The Company is a public limited company and is listed on the Bombay Stock Exchange (BSE). The Company has its registered office at New Industrial Development Area, Kanjikode Palakkad-678621.

#### 2 Accounting policies

This note provides a list of the material accounting policies adopted in the preparation of these Indian Accounting Standards (Ind-AS) financial statements. These policies have been consistently applied to all the years except where newly issued accounting standard is initially adopted.

# 2.1 Basis of preparation and statement of compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS)(hereinafter referred to as the 'Ind AS') notified under the Companies (Indian Accounting Standards) Rules 2015 (as amended). The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in Division II of Schedule III

to the Act, (Ind AS compliant Schedule III), and the Statement of Cash flows have been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements of Balance Sheet, and the Statement of Profit and Loss, as prescribed in Schedule III of the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under Ind ASs.

#### 2.2 Historical cost convention

The financial statements have been prepared on historical cost basis considering the applicable provisions of Companies Act 2013, except for the following material item that has been measured at fair value as required by relevant IND AS.( Historical cost is generally based on the fair value of the consideration given in exchange for goods and services)

- a) Certain financial assets / liabilities measured at fair value and
- b) Defined benefit plans plan assets measured at fair value;
- c) Any other item as specifically stated in the accounting policy.

The Financial Statement are presented in INR and all values are rounded off to Rupees Lakhs except share data and per share data unless otherwise stated.

# 2.3 Current vs non-current classification of assets and liabilities

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (not exceeding twelve months) and other criteria set out in the Schedule III to the Act.

Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalent, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities

An asset is classified as current when it is:

- (i) Expected to be realised or intended to sold or consumed in normal operating cycle, or
- (ii) Held primarily for the purpose of trading, or
- (iii)Expected to be realised within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current assets

An liability is classified as current when:

- (i) It is expected to be settled in normal operating cycle, or
- (ii) It is held primarily for the purpose of trading, or
- (iii)It is due to be settled within twelve months after the reporting period or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current liabilities

#### 2.4 Use of Estimate and judgment

In the application of accounting policy which are described in note (3&4) below, the management is required to make judgment, estimates and assumptions about the carrying amount of assets and liabilities, income and expenses, contingent liabilities and the accompanying disclosures that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant are prudent and reasonable. Actual results may differ from those estimates. The estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future period.

The few critical estimations and judgments made in applying accounting policies are:

#### Property, plant and equipment:

Useful life of Property plant and equipment and intangible assets are as specified in Schedule II to the Companies Act, 2013 and on certain assets based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, manufacturers warranties and maintenance support.

#### Impairment of non-financial Assets:

For calculating the recoverable amount of non-financial assets, the company is required to estimate the value-in-use of the asset or the Cash Generating Unit and the fair value less costs to disposal. For calculating value in use the company is required to estimate the cash flows to be generated from using the asset..

#### Impairment of financial assets:

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

#### Defined benefit plans:

The cost of the defined benefit plan and other post employment benefits and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. (refer Note 41)

# Recognition and measurement of provisions and contingencies

The company has estimated the timings of cash outflows, if any, in respect of the contingent lia-

bilities pending resolution of the respective proceedings, as it is determinable only on receipt of judgements/decisions pending with various forums/authorities. (refer Note 38)

#### 3 Material accounting policies

#### 3.1 Revenue

Revenue from contracts with customers is recognized when the Company transfers control of goods or services to the customer at an amount that reflects the consideration expected in exchange for those goods or services. The Company generally acts as the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

#### 3.2 Property, plant and equipment

Freehold land is recorded at its historical cost. All other property plant and equipment is recognized at cost, less accumulated depreciation and any impairment losses. Capital work-in-progress is reported at its cost, adjusted for any accumulated impairment losses.

Depreciation for property, plant and equipment is calculated on a straight-line basis, expensing the cost (less residual value) over their estimated useful lives, as determined through technical evaluation. See note 4(c) for the other accounting policies relevant to property, plant and equipment.

#### 3.3 Intangible assets

Intangible assets acquired separately are initially recognized at cost. Subsequently, they are carried at cost less any accumulated amortization and accumulated impairment losses.

#### 3.4 Inventory

Inventories are valued at lower of cost and net realizable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials, packing materials, consumables and stores and spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis. The materials and other items held for use in the production of inventories are not written down below cost if the finished products in which

they will be incorporated are expected to be sold at or above cost.

Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, Cost is determined on weighted average basis.

Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### 3.5 Trade Receivables

Trade receivables represent amounts due from customers for goods sold or services performed in the ordinary course of business. Initially, they are recognized at the transaction price, as they do not include financing components. Subsequently, the Company measures trade receivables at amortized cost using the effective interest method, net of any loss allowance, with the objective of collecting the contractual cash flows

#### 4 Other Accounting Policies

#### (a) Property, Plant and Equipment (PPE)

For transition to IND AS, the Company has elected to continue with the carrying value of Property, Plant and Equipment ('PPE') recognised as of the transition date(1 April 2016), measured as per the Previous GAAP and use that carrying value as its deemed cost of the PPE as on the transition date.

Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Capital Work-in-progress includes expenditure incurred till the assets are put into intended use. Capital Work-in-Progress are measured at cost less accumulated impairment losses, if any.

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses except for freehold land which is not depreciated. Cost includes purchase price after deducting trade discount / rebate, import duties, non-refundable taxes, cost of replacing the component parts, borrowing costs (if any) and other directly attributable cost of bringing the asset to its working condition in the manner intended by the management, and the initial estimates of the cost of dismantling /removing the item and restoring the site on which it is located.

Spare parts procured along with the Plant and Equipment or subsequently which has a useful life of more than 1 year and considering the concept of materiality evaluated by management are capitalised and added to the carrying amount of such items. The carrying amount of items of PPE and spare parts that are replaced is derecognised when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as 'stores and spares' forming part of the inventory.

An item of PPE is derecognised on disposal or when no future economic benefits are expected from use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss when asset is derecognised.

The depreciable amount of an asset is determined after deducting its residual value. Where the residual value of an asset increases to an amount equal to or greater than the asset's carrying amount, no depreciation charge is recognised till the asset's residual value decreases below the asset's carrying amount. Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the intended manner.

Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives prescribed under the schedule II to the Companies Act, 2013 except for the list of assets mentioned in the following table, where useful life is estimated by the management, which is different as compared to those prescribed under the Schedule II to the Companies Act, 2013.

| Block of Assets     | Estimated life<br>considered for<br>depreciation in years |                       |
|---------------------|---|-----------------------|
|                     | Holding<br>Company  | Subsidiary<br>Company |
| Building            |   |                       |
| - Office            | 58  | 60                    |
| - Factory           | 28  | 30                    |
|                     |   |                       |
| Plant and Machinery |   |                       |
| - Production Line   | 18  | 8                     |
| - Factory Equipment | 9   | 8                     |
| - Lab Equipments    | 10  | 8                     |

Depreciation on fixed assets added/disposed off during the year is provided on pro rata basis with reference to the date of addition/disposal.

#### Impairment:

The carrying amounts of the Company's tangible assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which impairment takes place.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however subject to the increased carrying amount not exceeding the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognized for the asset in prior accounting periods.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate

#### (b) Intangible Assets

On transition to Ind AS, the company has elected to continue with the carrying value of all of intangible assets recognized as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

Cost of software is capitalized as intangible asset and amortized on a straight-line basis over the economic useful life of three years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

The residual values, useful lives and methods of amortization of intangible assets are reviewed by the management at each financial year and adjusted prospectively, if appropriate.

#### (c) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the company, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

The residual value and the useful life of an asset is reviewed at least at each financial year-end based on a tangible valuation and, if expectations differ from previous estimates, the change(s) is accounted for as a change in an accounting estimate in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors.

#### (d) Investments in subsidiaries

A subsidiary is an entity that is controlled by the Company. The Company accounts for the investments in equity shares of subsidiaries at cost in accordance with Ind AS 27- Separate Financial Statements.

#### (e) Impairment

#### Impairment of non – Financial Asset

The carrying amounts of assets are reviewed at each balance sheet date for impairment if there is any indication of impairment based on internal/external factors. An impairment loss is rec-

ognised wherever the carrying amount of an asset exceeds its recoverable amount the recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are considered, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation /amortization is provided on the revised carrying amount of the asset over its remaining useful life.

#### Impairment of Financial Assets:

The company impairs financial assets other than those measured at fair value through profit or loss or designated at fair value through other comprehensive income on expected credit losses. The estimation of expected credit loss includes the estimation of probability of default (PD), loss given default (LGD) and the exposure at default (EAD). Estimation of probability of default apart from involving trend analysis of past delinquency rates include an estimation on forward looking information relating to not only the counterparty but also relating to the industry and the economy as a whole. The probability of default is estimated for the entire life of the contract by estimating the cash flows that are likely to be received in default scenario. The lifetime PD is reduced to 12 month PD based on an assessment of past history of default cases in 12 months. Further, the loss given default is calculated based on an estimate of the value of the security recoverable as on the reporting date. The exposure at default is the amount outstanding at the balance sheet date.

#### (f) Inventories

Inventories are valued at the lower of cost and net realisable value item wise. Cost includes indirect cost also. Costs incurred in bringing the inventory to its present location and condition are accounted for as follows:

(i) Raw materials: Cost includes cost of purchase net of duties, taxes that are recoverable from the Government and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO basis. (ii) Finished goods and work in progress: Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs if any. Work in progress are valued considering the cost of direct materials only.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Inventory obsolescence is based on assessment of the future uses. Obsolete and slow moving items are subjected to continuous technical monitoring and are valued at lower of cost and estimated net realizable value. When Inventories are sold, the carrying amount of those items are recognized as expenses in the period in which the related revenue is recognized.

#### (g) Government Grants, Subsidies and Export incentives

Government Grants and subsidies are recognized when there is reasonable assurance that the company will comply with the conditions attached to them and the grants / subsidy will be received. Export benefits are accounted on receipt basis only.

#### **Advance License**

The Company had obtained 4 advance licenses (Previous year 7 Licenses) for duty free import of Raw Materials. Company has met the export obligation in full against 4 Licences (Previous year 3 Licenses) obtained during the current year and has met the export obligation in full against 4 licences obtained during previous year.

# (h) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, for which it is probable that a cash outflow will be required, and a reliable estimate can be made of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, it's carrying amount is the present value of those cash flows (when the effect of time value of money is material). These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are disclosed when the

company has a possible obligation, or a present obligation and it is probable that an outflow of resources will not be required to settle the obligation or the amount of obligation cannot be measured with sufficient reliability. Contingent assets are not recognized in the books of account. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, an entity discloses the contingent asset.

#### (i) Foreign Currency Transactions and Translations

Foreign currency transactions are recorded in the reporting currency by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when such values were determined.

Exchange differences: Exchange differences arising on the settlement of monetary items or on reporting the Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they occur. The exchange differences arising on restatement / settlement of long-term foreign currency monetary items are capitalized as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets.

#### (j) Share Capital and Share Premium:

Ordinary shares are classified as equity, par value of the equity share is recorded as share capital and the amount received in excess of the par value is classified as share premium.

#### (k) Dividend Distribution to equity shareholders:

The Company recognises a liability to make cash

distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Company. A distribution is authorized when it is approved by the shareholders. A corresponding amount is recognised directly in other equity along with any tax thereon.

#### (l) Cash Flows and Cash and Cash Equivalents

Statement of cash flows is prepared in accordance with the indirect method prescribed in the Ind AS 7. For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cheques and drafts on hand, deposits held with Banks, other short term highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### (m) Revenue Recognition

The company derives revenues primarily from sale of manufactured goods, traded goods and related services. Effective 01 April 2018, the Group has adopted Indian Accounting Standard 115 (Ind AS 115) -'Revenue from contracts with customers' using the cumulative catch-up transition method, applied to contracts that were not completed as on the transition date i.e. 01 April 2018. The effect on adoption of Ind-AS 115 was insignificant.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

The company has a very low sales return ratio to sales and hence no provision for sales return or refund liability is recognized in the accounts for the products expected to be returned. The company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

#### I Sale of Goods:

Revenue from sale of goods is recognised at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers.

#### II Export benefits/incentives:

Export incentives under various schemes notified by the Government are recognized when confirmation of the right to receive the income is established. Receipts from government by way of Duty Draw Back is recognized only on receipt basis.

#### III Other incomes:

Other incomes are recognised on accrual basis except when there are significant uncertainties. Interest income is recognised on accrual basis using effective interest rate method.

#### (n) Employee benefits

#### a. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., are recognised during the period in which the employee renders related services and are measured at undiscounted amount expected to be paid when the liabilities are settled.

#### b. Long term employee benefits:

The cost of providing long term employee benefit such as earned leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. The expected costs of the benefit are accrued over the period of employment using the same methodology as used for defined benefits post-employment plans. Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit or Loss in which they arise except those included in cost of assets as permitted. The benefit is valued annually by independent actuary.

#### c. Defined contribution plans.

Payments to defined contribution retirement benefit plans, viz., Provident Fund for certain eligible employees, Pension Fund and Superannuation benefits are recognised as an expense when employees have rendered the service entitling them to the contribution.

#### d. Defined benefit plans: gratuity.

The net present value of the obligation for gratuity benefits are determined by actuarial valuation, conducted annually using the projected unit credit method. The retirement benefit obligations recognised in the Balance Sheet represents the present value of the defined benefit obligations reduced by the fair value of plan assets.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefits are recognised immediately in Statement of Profit and Loss.

Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest), are recognised in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

#### (o) Taxation

Income tax expense represents the sum of tax currently payable and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

#### Current tax

Current tax includes provision for Income Tax computed under Special provision (i.e., Minimum alternate tax) or normal provision of Income Tax Act. Tax on Income for the current year is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals.

#### Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets

and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or items related to equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

#### (p) Earnings per Share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

#### (q) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is classified as current when it is:

 Expected to be realized or intended to be sold or consumed in normal operating cycle

- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

- A liability is classified as current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

#### (r) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of asset and liability if market participants would take those into consideration.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

#### (s) Financial assets

A financial asset inter-alia includes any asset that is cash, equity instrument of another entity or contractual obligation to receive cash or another financial asset or to exchange financial asset or financial liability under condition that are potentially favourable to the Company.

#### Investments in subsidiaries

Investments in equity shares of subsidiaries are carried at cost less impairment. Impairment is provided for on the basis explained in Paragraph (5) of Note C above.

#### Financial assets other than above

Financial assets of the Company comprise trade receivable, cash and cash equivalents, Bank balances, loans/ advances to employee / others, security deposit, claims recoverable etc.

#### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss.

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets measured at amortized cost
- Financial assets at fair value through OCI
- Financial assets at fair value through profit or loss

#### Financial assets measured at amortized cost

Financial assets are measured at amortized cost if the financials asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are amortized using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

# Financial assets at fair value through OCI (FVTO-CI)

Financial assets are measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At initial recognition, an irrevocable election is made to designate investments in equity instruments other than held for trading purpose at FVTOCI. Fair value changes are recognised in the other comprehensive income (OCI).

# Financial assets at fair value through profit or loss (FVTPL)

Any financial asset that does not meet the criteria for classification as at amortized cost or as financial assets at fair value through other comprehensive income, is classified as financial assets at fair value through profit or loss.

#### Derecognition

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

#### (t) Financial liabilities

The Company's financial liabilities include trade payable, accrued expenses and other payables.

#### Initial recognition and measurement

All financial liabilities at initial recognition are classified as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognised initially at fair value. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised in the Statement of Profit and Loss.

#### Subsequent measurement

The subsequent measurement of financial liabilities depends upon the classification as described below:-

## Financial Liabilities at Fair value through profit and loss (FVTPL)

FVTPL includes financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Financial liabilities have not been designated upon initial recognition at FVTPL.

#### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged / cancelled / expired..

#### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

#### (u) Inter corporate deposits.

Company had advanced Inter Corporate loans to companies on short term basis at a specific rate of interest against security. The inter corporate deposit are advanced to the related companies after considering factors such as track record, size of organization, market reputation and value of the security.

Level 1: Level 1 hierarchy included financial instruments measured using quoted prices. This included listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market are determined using valuation techniques which maximize the use of observable market data. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

#### 46 Capital management

The Company's objective when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to share holders through continuing growth and maximise the share holders' value. The Company's overall strategy remains unchanged from previous year. The Company sets the amounts of capital required on the basis of annual business and long term operating plans.

#### 47 Financial risk management

The Company's activities expose it to a variety of financial risks, market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer. The Company's risk management activity focuses on actively securing the Company's short to medium-term cash flows by minimising the exposure to volatile financial markets. The sensitivity to a 5% increase or decrease in the exchange rate against INR with all other variables held constant will be ~341.58 Lakhs (previous year 35.76 Lakhs) The Sensitivity analysis is prepared on the net unhedged exposure of the company at the reporting date. The Company has not entered into any forward contracts or foreign currency hedges to mitigate the risk.

#### 1c Price Risk

The Company is affected by the price instability of certain commodities. Due to the significantly increased volatility of certain commodities like latex, acetic acid and other chemicals, the Company closely monitors the price fluctuations to reap the price advantages.

The Company's investments in unquoted securities are susceptible to market price risk arising from uncertainties about future values of investment securities. The company manages the securities price risk through investments in debt funds /intercorporate deposits and by placing limits on individual and total investments.

#### 1d Equity Risk

There is no equity risk relating to the Company's equity investments which are detailed in note 4 "Other investments". The Company's equity investments majorly comprises of strategic investments rather than trading purposes.

#### 2 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The company is exposed to credit risk for receivables, cash and cash equivalents and short term loans.

#### Cash and cash equivalents and short-term Loans (Loans current)

The Company considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally, the balances are maintained with the institutions with which the Company has been transacting for years. The Company has made several Intercorporate loans on security with unrelated/ related companies considering factors such as track record, size of organisation, market reputation and value of the security. The risk is mitigated by the securities and guarantees provided by the companies. Therefore, the company does not expect any material risk on account of non-performance by any of the companies to which the loans are given.

#### **Trade Receivables**

The company is exposed to credit risk from its operating activities primarily from trade receivable amounting to ₹.4937.85 Lakhs and ₹.4439.39 Lakhs as of 31 March 2024 and 31 March 2023 respectively. The company has standard operating procedure for obtaining sufficient security where appropriate, as a means of mitigating the risk of financial loss from defaults. No customers accounted for 10% or more of revenue during the reporting periods covered. The credit quality of the company's customers is monitored on an on going basis and assessed for impairment where indicators of such impairment exist. The history of trade receivables shows a negligible provision for bad and doubtful debts. The solvency of customers and their ability to repay the receivable is considered in assessing receivables for impairment. Therefore, the Company does not expect any material risk on account of non performance by any of the Company's counterparties. Where receivables are impaired, the Company actively seeks to recover the amounts in question and enforce the compliance with credit terms.

#### 3 Liquidity Risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The Company requires funds both for short-term operational needs as well as for long-term growth projects. The Company generates sufficient cash flows from the current operations which together with the available cash and cash equivalents provide liquidity both in the short-term as well as in the long-term. The company has a current ratio of 5.04 as on 31 March 2024 (Previous year 3.91).

#### 4 Interest Rate Risk

The Company is a zero-debt company as on 31 March 2024 (Previous year Rs. Nil) and is not exposed to

any interest rate risk of short-term or long-term borrowings. There are no foreign currency borrowings made by the company during the reporting periods. The impact on the Companies profit before tax due to change in interest rate is Nil at the close of this financial year.

#### 5 Other Risk

Financial assets of ₹2029.34 lakhs (previous year ₹393.39 Lakhs) as at March 31, 2024 carried at amortised cost is in the form of cash and cash equivalents, bank deposits and earmarked balances with banks where the Company has assessed the counterparty credit risk. Trade receivables of ₹4937.85 lakhs as at March 31, 2024 (previous year ₹4439.39 Lakhs) forms a significant part of the financial assets carried at amortised cost which is valued considering provision for allowance using expected credit loss method.

This assessment is not based on any mathematical model but an assessment considering the financial strength of the customers in respect of whom amounts are receivable. The Company is in the process of evaluating the potential impact with respect to customers in Domestic Formulation segment which could have an immediate impact. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, recognition of revenue on collection basis etc., depending on severity of each case. Based on the initial assessment, the company do not expect any abnormal credit loss though supplying to an unorganised sector. The allowance for doubtful trade receivables is Rs.8.91 Lakhs as at March 31, 2024 (previous year Rs.14.84).

# **Independent** Auditors' Report

# To the members of Rubfila International Limited Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the accompanying consolidated financial statements of Rubfila International Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, material accounting policy information and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at 31 March 2024, and consolidated total comprehensive income (comprising of profit and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the

consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

# Information other than the financial statements and auditor's report thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, Management Discussion and Analysis, Report on Corporate Governance and Business Responsibility and Sustainability Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

# Responsibilities of Management and those charged with governance for the consolidated financial statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement. whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

# Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assur-

ance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, specified under Section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
   Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may

cause the Company to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and subsidiary company included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Other Matter

 We did not audit the annual financial statements/ financial information of the subsidiary included in the Statement, whose financial information (prior to consolidation adjustments), reflects total assets of Rs.5,869.46 Lakhs as at 31 March 2024, total revenues of Rs.8,608.26 Lakhs, total net profit after tax of Rs.635.80 Lakhs, total comprehensive income of Rs. 628.20 Lakhs, and cash flows (net) Rs. 366.07 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These annual financial statements have been audited by other auditors whose audit reports have been furnished to us by the management, and our opinion in so far as it relates to the amounts and disclosures included in respect of these subsidiary is based solely on the audit reports of such other auditors, and the procedures performed by us as stated in above. Our opinion, in so far as it relates to the balances and affairs of these subsidiary is based on the audit report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

countants on separate financial statements and other financial information of the subsidiary, incorporated in India whose financial statements have been audited under the Act, we report, to the extent applicable, that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements:
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
- c) The consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements:
- d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;
- e) On the basis of the written representations received from the directors of the Holding Company, and taken on record by the Board of Directors of the Holding Company, and the reports of the statutory auditors of its subsidiary company, covered under the Act, none of the directors of the Group companies, are disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act;
- f) With respect to the maintenance of accounts and other matters connected therewith reference is made to our remarks in paragraph h)viii below on reporting under rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
- g) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the group and the operating effectiveness of such controls, refer to our separate report in 'Annexure A' wherein we have expressed an unmodified opinion; and
- h) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the

explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and other financial information of the subsidiary, incorporated in India whose financial statements have been audited under the Act:

- The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group;
- Provision has been made in these consolidated financial statements, as required under the applicable law or Ind AS, for material foreseeable losses, on long-term contracts;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, and its subsidiary company incorporated in India during the year ended 31 March 2024;

iv.

- a. The respective managements of the Holding Company and its subsidiary company incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditor of such subsidiary, that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company or its subsidiary company, to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or subsidiary company, ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
- b. The respective managements of the Holding Company and its subsidiary company, incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary, that, to the best of their knowledge and belief, no

funds have been received by the Holding Company or its subsidiary company, from any person(s) or entity(ies), ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or subsidiary company, shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries: and

- c. Based on such audit procedures performed by us and that performed by the other auditors of the subsidiary, as considered reasonable and appropriate in the circumstances, nothing has come to our or other auditors notice that has caused us or the other auditors to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
- v. The dividend declared and paid during the year by the Holding Company is in compliance with Section 123 of the Act.
- vi. Based on our examination, which included test checks and that performed by the respective auditor of the subsidiary, which are companies incorporated in India whose financial statements have been audited under the Act, except for the instances mentioned below, the Group have used accounting software for maintaining books of account which have a feature of recording audit trail facility and that has operated throughout the year for all relevant transactions recorded in the software.
- vii. Based on our examination, which included test checks and that performed by the respective auditor of the subsidiary, which are companies incorporated in India whose financial statements have been audited under the Act, except for the instances mentioned below, the Group have used accounting software for maintaining books of account which have a feature of recording audit trail (edit log) facility and that has operated throughout the year for all relevant transactions recorded in the software.

Holding company and the subsidiary have used accounting software for maintaining books of account which have a feature of recording audit trail facility and that has operated throughout the year for all relevant transactions recorded in the software, except that the audit trail is not maintained for changes to certain records and changes made by certain users with specific access, if any. During the course of performing our procedures, except for the aforesaid instances of audit trail not maintained at the application level where the question of our commenting on whether the audit trail has been tampered with does not arise, we did not notice any instance of audit trail feature being tampered with in cases where the audit trail feature was enabled. Also, refer Note 55 to the standalone financial statements.

#### Annexure A to The Independent Auditor's Report - 31 March 2024

Report on the Internal Financial Controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Rubfila International Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), as at and for the year ended 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Holding Company, its subsidiary company, which are companies covered under the Act, as at that date.

# Responsibilities of Management and those charged with governance for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Consolidated Financial Statements

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under

Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary company, as aforesaid.

# Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

#### **Inherent Limitations of Internal Financial Controls**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary company which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to consolidated financial statements and such controls were operating effectively as at 31 March 2024, based on the internal financial control over financial reporting criteria established by the Holding Company, its subsidiary company, as aforesaid, considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

#### **Other Matter**

We did not audit the internal financial controls with reference to financial statements insofar as it relates to the annual financial statements/ financial information of the subsidiary included in the Statement, whose financial information (prior to consolidation adjustments), reflects total assets of Rs.5,869.46 Lakhs as at 31 March 2024, total revenues of Rs.8,608.26 Lakhs. total net profit after tax of Rs.635.80 Lakhs, total comprehensive income of Rs. 628.20 Lakhs, and cash flows (net) Rs. 366.07 Lakhs for the year ended on that date, as considered in the Statement, which are companies covered under the Act, whose internal financial controls with reference to financial statements have not been audited by us. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary company have been audited by other auditors whose report have been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements for the Holding Company, its subsidiary company, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to the subsidiary company is based solely on the report of the auditors of such company. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

# Notes to Consolidated Financial Statement

# for the year ended 31 March 2024

1

#### **A) Group Corporate Information**

Rubfila International Limited (RIL) (the "Holding company") is a is a public limited group domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. M/s Premier Tissues India Limited is the wholly owned subsidiary of the holding company. The holding company and the subsidary company together refered as the "Group".

The holding company is the largest manufacturer of both Talcum Coated and Silicon Coated Heat Resistant Latex Rubber threads in India. It has adopted internationally accepted quality standards and its products are well received among customers both in India as well as around the world. The subsidiary company is engaged in the business of manufacturing and selling of paper tissues.

The consolidated financial statements for the year ended 31 March 2024 were approved by the Board of Directors and authorized for issue on 24 May 2024.

# B) Basis of preparation of consolidated financial statements

#### (i) Statement of compliance

These consolidated financial statements ('financial statements') have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI). The accounting policies are applied consistently to all the periods presented in the financial statements.

#### (ii) Basis of preparation and presentation

The principal accounting policies applied in the

preparation of these financial statements are set out in Para C below. These policies have been consistently applied to all the years presented.

The financial statements have been prepared on historical cost basis considering the applicable provisions of Companies Act 2013, except for the following material item that has been measured at fair value as required by relevant IND AS. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

- a) Certain financial assets / liabilities measured at fair value and
- b) Defined benefit plans plan assets measured at fair value;
- c) Any other item as specifically stated in the accounting policy.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle (not exceeding twelve months) and other criteria set out in the Schedule III to the Act.

The Financial Statement are presented in INR and all values are rounded off to Rupees Lakhs except share data and per share data unless otherwise stated.

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the consolidated Statement of Profit and Loss.

The group reclassifies comparative amounts, unless impracticable and whenever the group changes the presentation or classification of items in its financial statements materially. No such material reclassification has been made during the year.

#### (iii)Principles of consolidation

Subsidiaries are entities over which the Holding group has control. The Holding company controls an entity when the Holding company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Holding company. They are deconsolidated from the date that control ceases.

The Group combines the financial statements of the Holding company and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

#### (iv)Use of Estimate and judgment

In the application of accounting policy which are described in note (C) below, the management is required to make judgment, estimates and assumptions about the carrying amount of assets and liabilities, income and expenses, contingent liabilities and the accompanying disclosures that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant are prudent and reasonable. Actual results may differ from those estimates. The estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future period.

The few critical estimations and judgments made in applying accounting policies are:

#### Property, plant and equipment:

Useful life of Property plant and equipment and intangible assets are as specified in Schedule II to the Companies Act, 2013 and on certain assets based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, man-

ufacturers warranties and maintenance support.

#### Impairment of non-financial Assets:

For calculating the recoverable amount of non-financial assets, the group is required to estimate the value-in-use of the asset or the Cash Generating Unit and the fair value less costs to disposal. Specifically, when calculating the value in use, the group needs to estimate the cash flows expected to be generated from utilizing the asset.

#### Impairment of financial assets:

The group measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

#### Defined benefit plans:

The cost of the defined benefit plan and other postemployment benefits and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. (refer Note 47)

# Recognition and measurement of provisions and contingencies

The group has estimated the timings of cash outflows, if any, in respect of the contingent liabilities pending resolution of the respective proceedings, as it is determinable only on receipt of judgements/decisions pending with various forums/authorities. (refer Note 43)

#### C) Material accounting policies

#### 1 Revenue

Revenue from contracts with customers is recognized when the Company transfers control of goods or services to the customer at an amount that reflects the consideration expected in exchange for those goods or services. The Company generally acts as the principal in its revenue arrangements

because it typically controls the goods or services before transferring them to the customer.

#### 2 Property, plant and equipment

Freehold land is recorded at its historical cost. All other property plant and equipment is recognized at cost, less accumulated depreciation and any impairment losses. Capital work-in-progress is reported at its cost, adjusted for any accumulated impairment losses. Depreciation for property, plant and equipment is calculated on a straightline basis, expensing the cost (less residual value) over their estimated useful lives, as determined through technical evaluation. See note 4(c) for the other accounting policies relevant to property, plant and equipment.

#### 3 Intangible assets

Intangible assets acquired separately are initially recognized at cost. Subsequently, they are carried at cost less any accumulated amortization and accumulated impairment losses.

#### 4 Inventory

Inventories are valued at lower of cost and net realizable value. Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials, packing materials, consumables and stores and spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis. The materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, Cost is determined on weighted average basis.

Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### 5 Trade Receivables

Trade receivables represent amounts due from customers for goods sold or services performed in the ordinary course of business. Initially, they are recognized at the transaction price, as they do not include financing components. Subsequently, the Company measures trade receivables at amortized cost using the effective interest method, net of any loss allowance, with the objective of collecting the contractual cash flows

#### D) Other Accounting Policies

#### 1 Property, Plant and Equipment (PPE)

For transition to IND AS, the group has elected to continue with the carrying value of Property, Plant and Equipment ('PPE') recognised as of the transition date(1 April 2016), measured as per the Previous GAAP and use that carrying value as its deemed cost of the PPE as on the transition date.

"Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Capital Work-in-progress includes expenditure incurred till the assets are put into intended use. Capital Work-in-Progress are measured at cost less accumulated impairment losses, if any."

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses except for freehold land which is not depreciated. Cost includes purchase price after deducting trade discount / rebate, import duties, non-refundable taxes, cost of replacing the component parts, borrowing costs (if any) and other directly attributable cost of bringing the asset to its working condition in the manner intended by the management, and the initial estimates of the cost of dismantling /removing the item and restoring the site on which it is located.

Spare parts procured along with the Plant and Equipment or subsequently which has a useful life of more than 1 year and considering the concept of materiality evaluated by management are capitalised and added to the carrying amount of such items. The carrying amount of items of PPE and spare parts that are replaced is derecognised when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as 'stores and spares' forming

part of the inventory.

An item of PPE is derecognised on disposal or when no future economic benefits are expected from use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss when asset is derecognised.

The depreciable amount of an asset is determined after deducting its residual value. Where the residual value of an asset increases to an amount equal to or greater than the asset's carrying amount, no depreciation charge is recognised till the asset's residual value decreases below the asset's carrying amount. Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the intended manner.

Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives prescribed under the schedule II to the Companies Act, 2013 except for the list of assets mentioned in the following table, where useful life is estimated by the management, which is different as compared to those prescribed under the Schedule II to the Companies Act, 2013.

| Block of Assets      | Estimated life<br>considered for<br>depreciation in years |                       |  |
|----------------------|---|-----------------------|--|
|                      | Holding<br>Company  | Subsidiary<br>Company |  |
| Building             |   |                       |  |
| - Office             | 58  | 60                    |  |
| - Factory            | 28  | 30                    |  |
|                      |   |                       |  |
| Plant and Machinery  |   |                       |  |
| - Production Line    | 18  | 20                    |  |
| - Factory Equipment  | 9   | 8                     |  |
| - Lab Equipments     | 10  | 8                     |  |
| Furniture & Fixtures |   | 10                    |  |

Depreciation on fixed assets added/disposed off during the year is provided on pro rata basis with reference to the date of addition/disposal.

#### Impairment:

The carrying amounts of the group's tangible assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which impairment takes place.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however subject to the increased carrying amount not exceeding the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognized for the asset in prior accounting periods.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate

#### 2 Intangible Assets

On transition to Ind AS, the group has elected to continue with the carrying value of all of intangible assets recognized as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

Cost of software is capitalized as intangible asset and amortized on a straight-line basis over the economic useful life of three years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

The residual values, useful lives and methods of amortization of intangible assets are reviewed by the management at each financial year and adjusted prospectively, if appropriate.

#### 3 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

The residual value and the useful life of an asset is reviewed at least at each financial year-end based on a tangible valuation and, if expectations differ from previous estimates, the change(s) is accounted for as a change in an accounting estimate in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors.

#### 4 Investments in subsidiaries

A subsidiary is an entity that is controlled by the group. The group accounts for the investments in equity shares of subsidiaries at cost in accordance with Ind AS 27- Separate Financial Statements.

#### 5 Impairment

#### Impairment of non - Financial Asset

The carrying amounts of assets are reviewed at each balance sheet date for if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are considered, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation /amortization is provided on the revised carrying amount of the asset over its remaining useful life.

#### Impairment of Financial Assets:

The group impairs financial assets other than those measured at fair value through profit or loss or designated at fair value through other comprehensive income on expected credit losses. The estimation of expected credit loss includes the estimation of probability of default (PD), loss given default (LGD) and the exposure at default (EAD).

Estimation of probability of default apart from involving trend analysis of past delinquency rates include an estimation on forward looking information relating to not only the counterparty but

also relating to the industry and the economy as a whole. The probability of default is estimated for the entire life of the contract by estimating the cash flows that are likely to be received in default scenario. The lifetime PD is reduced to 12 month PD based on an assessment of past history of default cases in 12 months. Further, the loss given default is calculated based on an estimate of the value of the security recoverable as on the reporting date. The exposure at default is the amount outstanding at the balance sheet date.

#### 6 Inventories

Inventories are valued at the lower of cost and net realisable value item wise. Cost includes indirect cost also. Costs incurred in bringing the inventory to its present location and condition are accounted for as follows:

- (i) Raw materials: Cost includes cost of purchase net of duties, taxes that are recoverable from the Government and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO basis.
- (ii) Finished goods and work in progress: Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs if any. Work in progress are valued considering the cost of direct materials only.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Inventory obsolescence is based on assessment of the future uses. Obsolete and slow moving items are subjected to continuous technical monitoring and are valued at lower of cost and estimated net realizable value. When Inventories are sold, the carrying amount of those items are recognized as expenses in the period in which the related revenue is recognized.

# 7 Government Grants, Subsidies and Export incentives

Government Grants and subsidies are recognized when there is reasonable assurance that the group will comply with the conditions attached to them and the grants / subsidy will be received. Export benefits are accounted on receipt basis only.

#### Advance License

The Company had obtained 4 advance licenses (Previous year 7 Licenses) for duty free import of Raw Materials. Company has met the export obligation in full against 4 Licences (Previous year 3 Licenses) obtained during the current year and has met the export obligation in full against 4 licences obtained during previous year.

#### 8 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the group has a present obligation (legal or constructive) as a result of a past event, for which it is probable that a cash outflow will be required, and a reliable estimate can be made of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, it's carrying amount is the present value of those cash flows (when the effect of time value of money is material). These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are disclosed when the group has a possible obligation, or a present obligation and it is probable that an outflow of resources will not be required to settle the obligation or the amount of obligation cannot be measured with sufficient reliability. Contingent assets are not recognized in the books of account. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, an entity discloses the contingent asset.

#### 9 Foreign Currency Transactions and Translations

Foreign currency transactions are recorded in the reporting currency by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction. Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when such values were determined.

Exchange differences: Exchange differences aris-

ing on the settlement of monetary items or on reporting the group's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they occur. The exchange differences arising on restatement / settlement of long-term foreign currency monetary items are capitalized as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets.

#### 10 Share Capital and Share Premium:

Ordinary shares are classified as equity, par value of the equity share is recorded as share capital and the amount received in excess of the par value is classified as share premium.

#### 11 Dividend Distribution to equity shareholders:

The group recognises a liability to make cash distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the group. A distribution is authorized when it is approved by the shareholders. A corresponding amount is recognised directly in other equity along with any tax thereon.

#### 12 Cash Flows and Cash and Cash Equivalents

Statement of cash flows is prepared in accordance with the indirect method prescribed in the Ind AS 7. For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cheques and drafts on hand, deposits held with Banks, other short term highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### 13 Revenue Recognition

The group derives revenues primarily from sale of manufactured goods, traded goods and related services. Effective 01 April 2018, the Group has adopted Indian Accounting Standard 115 (Ind AS 115) -'Revenue from contracts with customers' using the cumulative catch-up transition method, applied to contracts that were not completed as on the transition date i.e. 01 April 2018. The effect on adoption of Ind-AS 115 was insignificant.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

The group has a very low sales return ratio to sales and hence no provision for sales return or refund liability is recognized in the accounts for the products expected to be returned. The group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers

#### a. Sale of Goods:

Revenue from sale of goods is recognised at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers.

#### b. Export benefits/incentives:

Export incentives under various schemes notified by the Government are recognized when confirmation of the right to receive the income is established. Receipts from government by way of Duty Draw Back is recognized only on receipt basis.

#### c. Other incomes:

Other incomes are recognised on accrual basis except when there are significant uncertainties. Interest income is recognised on accrual basis using effective interest rate method.

#### 14 Employee benefits

#### a. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., are recognised during the period in which the employee renders related services and are measured at undiscounted amount expected to be paid when the liabilities are settled.

#### b. Long term employee benefits:

The cost of providing long term employee benefit such as earned leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. The expected costs of the benefit are accrued over the period of employment using the same methodology as used for defined benefits post-employment plans. Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit or Loss in which they arise except those included in cost of assets as permitted. The benefit is valued annually by independent actuary.

#### c. Defined contribution plans.

Payments to defined contribution retirement benefit plans, viz., Provident Fund for certain eligible employees, Pension Fund and Superannuation benefits are recognised as an expense when employees have rendered the service entitling them to the contribution.

#### d. Defined benefit plans: gratuity.

The net present value of the obligation for gratuity benefits are determined by actuarial valuation, conducted annually using the projected unit credit method. The retirement benefit obligations recognised in the Balance Sheet represents the present value of the defined benefit obligations reduced by the fair value of plan assets. All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefits are recognised immediately in Statement of Profit and Loss as past service cost, if any, and net interest on the defined benefit liability/(asset) are recognised in the Statement of Profit and Loss.

Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest), are recognised in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

#### 15 Taxation

Income tax expense represents the sum of tax currently payable and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

#### Current tax

Current tax includes provision for Income Tax computed under Special provision (i.e., Minimum alternate tax) or normal provision of Income Tax Act. Tax on Income for the current year is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals.

#### Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or items related to equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

#### 16 Earnings per Share

The group presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the group by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit and loss attributable

to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

#### 17 Current versus non-current classification

The group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- · Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

- A liability is classified as current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

All assets and liabilities have been classified as current or non-current as per the group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the group has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non current assets and liabilities.

#### 18 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an or-

derly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the group takes into account the characteristics of asset and liability if market participants would take those into consideration.

The group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

#### 19 Financial assets

A financial asset inter-alia includes any asset that is cash, equity instrument of another entity or contractual obligation to receive cash or another financial asset or to exchange financial asset or financial liability under condition that are potentially favourable to the group.

#### Investments in subsidiaries & joint ventures

Investments in equity shares of subsidiaries and joint venture are carried at cost less impairment. Impairment is provided for on the basis explained in Paragraph (5) of Note C above.

#### Financial assets other than above

Financial assets of the group comprise trade receivable, cash and cash equivalents, Bank balances, loans/ advances to employee / others, security deposit, claims recoverable etc.

#### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss.

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets measured at amortized cost
- Financial assets at fair value through OCI
- Financial assets at fair value through profit or loss

#### Financial assets measured at amortized cost

Financial assets are measured at amortized cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are amortized using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

# Financial assets at fair value through OCI (FVTO-CI)

Financial assets are measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. At initial recognition, an irrevocable election is made to designate investments in equity instruments other than held for trading purpose at FVTOCI. Fair value changes are recognised in the other comprehensive income (OCI).

# Financial assets at fair value through profit or loss (FVTPL)

Any financial asset that does not meet the criteria for classification as at amortized cost or as financial assets at fair value through other comprehensive income, is classified as financial assets at fair value through profit or loss.

#### Derecognition

The group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

#### 20 Financial liabilities

The group's financial liabilities include trade payable, accrued expenses and other payables.

#### Initial recognition and measurement

All financial liabilities at initial recognition are classified as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognised initially at fair value. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised in the Statement of Profit and Loss.

#### Subsequent measurement

The subsequent measurement of financial liabilities depends upon the classification as described below:-

# Financial Liabilities at Fair value through profit and loss (FVTPL)

FVTPL includes financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Financial liabilities have not been designated upon initial recognition at FVTPL.

#### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged / cancelled / expired.

#### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

#### 21 Inter corporate deposits.

The Holding company had advanced Inter Corporate loans to companies on short term basis at a specific rate of interest against security. The inter corporate deposit are advanced to the related companies after considering factors such as track record, size of organization, market reputation and value of the security.

#### 22 Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

IndAS16-Property Plant and equipment-

The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its consolidated financial statements.

IndAS 37-Provisions, Contingent Liabilities and Contingent Assets- The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that related directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. although early adoption is permitted. The Group has evaluated the amendment and the impact is not expected to be material.

Amendments to Ind AS 109 – Financial Instruments The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The adoption of amendments to Ind AS 109 did not have any material impact on the standalone financial statements.

#### 23 Standards notified but not yet effective

The Ministry of Corporate Affairs has vide notification dated 31 March 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the 'Rules') which amends certain accounting standards, and are effective 1 April 2023. The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications. These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the Company's accounting policy already complies with the now mandatory treatment.

- **22.2** Provision for Tripura VAT Receivable: The application for excess input tax credit of sales from Agartala operations during the period 2014-2017 is lodged before the commercial tax authorities of Tripura which is still penidng due to the ambiguity in the provisions of the Tripura VAT Act.
- 22.3 Provision for Contigencies: Due to the numerous uncertainties and variables associated with certain assumptions and judgments and the effects of changes in the regulatory and legal environment, both the precision and reliability of the resulting estimates of the related contingencies are subject to substantial uncertainty. The company regularly monitors its estimated exposure to such loss contingencies and, as additional information becomes known, may change its estimates significantly. However, no estimate of the range of any such change can be made at this time. The company has prudently set aside an amount irrespective of the possible outcome.
- **22.4** Provision for sales tax differential payable: Sales Tax Differential payable of Rs. 0.19 lakhs represents the amount paid by the customers in lieu of Form C (differential tax), which will be offset against any liability that arises after the assessment for the first three months of 2017-18 (Vat Authorities, Kerala).

Level 1: Level 1 hierarchy included financial instruments measured using quoted prices. This included listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market are determined using valuation techniques which maximize the use of observable market data. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

### 52 Capital management

The groups objective when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to share holders through continuing growth and maximise the share holders' value. The group's overall strategy remains unchanged from previous year. The group sets the amounts of capital required on the basis of annual business and long term operating plans.

### 53 Financial risk management

The groups's activities expose it to a variety of financial risks, market risk, credit risk and liquidity risk. The group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The groups's exposure to credit risk is influenced mainly by the indi-

vidual characteristic of each customer. The groups's risk management activity focuses on actively securing the group's short to medium-term cash flows by minimising the exposure to volatile financial markets. Long-term financial investments are managed to generate lasting returns. The group does not actively engage in the trading of financial assets for speculative purpose nor does it write options. The most significant financial risk to which the group is exposed are described below:-

The group has assessed market risk, credit risk and liquidity risk to its financial instruments.

#### 1 Market Risk

It is the risk of loss of future earnings, fair values or cash flows that may result from a change in the price of a financial instrument, as a result of interest rates, foreign exchange rates and other price risks. Financial instruments affected by market risks, primarily include loans & borrowings, investments and foreign currency receivables, payables and borrowings.

### 1a Interest rate risk

The groups has not availed any loans, hence the exposure to interest rate risk is nil. (Previous year-Nil)

### 1b Currency risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The group's exposure to the risk of changes in foreign exchange rates relates primarily to the purchase of materials from abroad and realization on export sales: The impact on the group's profit before tax due to change in interest rate is given below:-

The sensitivity to a 5% increase or decrease in the exchange rate against INR with all other variables held constant will be ₹41.58 Lakhs (previous year ₹35.76 Lakhs) The Sensitivity analysis is prepared on the net unhedged exposure of the company at the reporting date. The group has not entered into any forward contracts or foreign currency hedges to mitigate the risk.

### 1c Price Risk

The group is affected by the price instability of certain commodities. Due to the significantly increased volatility of certain commodities like latex, acetic acid, paper and other chemicals, the group closely monitors the price fluctuations to reap the price advantages.

The groups's investments in unquoted securities are susceptible to market price risk arising from uncertainties about future values of investment securities. The group manages the securities price risk through investments in debt funds /intercorporate deposits and by placing limits on individual and total investments.

#### 2 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the group. The group is exposed to credit risk for receivables, cash and cash equivalents and short term loans.

### Cash and cash equivalents and short-term Loans (Loans current)

The group considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally, the balances are maintained with the institutions with which the group has been transacting for years. The group has made several Intercorporate loans on security with unrelated/ related companies considering factors such as track record, size of organisation, market reputation and value of the security. The risk is mitigated by the securities and guarantees provided by the group. Therefore, the group does not expect any material risk except for the ones mentioned in Note 43.1 on account of non -performance by any of the companies to which the loans are given.

#### **Trade Receivables**

The group is exposed to credit risk from its operating activities primarily from trade receivable amounting to  $\stackrel{?}{\sim} 5489.78$  Lakhs and  $\stackrel{?}{\sim} 4,833.53$  Lakhs as of 31 March 2024 and 31 March 2023 respectively. The group has standard operating procedure for obtaining sufficient security where appropriate, as a means of mitigating the risk of financial loss from defaults. No customers accounted for 10% or more of revenue during the reporting periods covered. The credit quality of the group's customers is monitored on an on going basis and assessed for impairment where indicators of such impairment exist. The history of trade receivables shows a negligible provision for bad and doubtful debts. The solvency of customers and their ability to repay the receivable is considered in assessing receivables for impairment. Therefore , the group does not expect expect any material risk on account of non performance by any of the group's counterparties. Where receivables are impaired, the group actively seeks to recover the amounts in question and enforce the compliance with credit terms

### 3 Liquidity Risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the group's short-term, medium-term and long-term funding and liquidity management requirements. The group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

### 4 Interest Rate Risk

The group is a zero-debt group as on 31 March 2024 (Previous year Rs. Nil) and is not exposed to any interest rate risk of short-term or long-term borrowings. There are no foreign currency borrowings made by the group during the reporting periods. The impact on the Companies profit before tax due to change in interest rate is Nil at the close of this financial year.

#### 5 Other Risk
